Lawyers Professional Liability Insurance

For over 70 years, CNA has set the standard in Lawyers Professional Liability (LPL) insurance. As the nation's #1 underwriter of LPL coverage, we insure more law firms than any other carrier – a position earned through deep industry expertise, enduring partnerships and unmatched service.

Endorsed by leading state bar associations and trusted by mid-size (35+ attorneys) and large law firms nationwide, our dedicated Underwriting, Claims and Risk Control teams deliver tailored solutions, broad coverage and the stability firms rely on.

Claims Expertise: Our Claims team consists of experienced attorneys who specialize exclusively in mid-size and large law firm professional liability exposures. These legal professionals:

- Have a deep understanding of complex, high-value and cross-border claims
- Advise and collaborate with insureds throughout every stage of the claims process
- Leverage strong relationships with defense counsel to provide a premier claims experience

Risk Control Services: Our Risk Control attorneys provide proactive support to help firms manage exposure and reduce risk. Firms gain access to:

- Comprehensive risk management resources including seminars, webinars, articles and guides
- Custom risk management programs tailored to the specific needs of mid-size and large law firms

Allied Vendor Program: CNA policyholders have access to vital services outside of an insurance carrier's capabilities through our Allied Vendor Program. Our Risk Control team has identified companies that offer services designed to strengthen a law firm's business and risk controls – many at a preferred rate.
